Professional Summary

Workday Pro Integrations Certified professional with 3+ years of experience in Workday Integrations and Security for enterprise environments. Skilled in Workday Security, EIB, CCW, Workday Studio, Workday Web Services, and production support activities. Experienced in handling secure integrations, access control, API-based data exchange, and issue resolution across Workday systems. Strong technical background with additional exposure to automation workflows, APIs, and backend systems.

Technical Skills

- **Workday:** Workday HCM, Workday Integrations (EIB, CCW, Workday Studio), Workday Security (RBAC, Domain Security Policies), Workday Web Services (SOAP, REST), **RaaS**
- **Integration & APIs:** REST, SOAP, Data Mapping, XML, JSON, XSLT, Integration Design & API Implementation
- **Protocols:** HTTPS, SFTP, FTP, SSH
- **Authentication:** Basic Authentication, OAuth 2.0, Token-based Security
- **Data & Processing:** CSV, XML Processing, Data Transformation, Data Validation, Error Handling
- **Tools:** Postman, Eclipse, **Git**,
- **Automation & Workflows:** **Agentic Workflows**, RAG, FAISS, API-driven Automation, Process Orchestration
- **Concepts:** Business Process Framework (BPF), Workflow Orchestration, Production Support, Debugging & Log Analysis

Professional Experience

NNS Media Broadcasting Productions Pvt. Ltd.

Software Engineer / Technical Operations

(Jan'25 – Present)

- Built **API-based data flows** for content processing and publishing, reducing manual work by **80%**.
- Developed backend services using FastAPI and handled system workflows.
- Designed and implemented **agentic workflows** for automated decision-based content processing and execution.
- Integrated systems using REST APIs and handled structured data exchange.
- Implemented data validation and transformation to ensure correct data flow and fix issues for production servers.

Wipro Limited

Workday Integration & Security Consultant

(Nov'21 – Jan'25)

- Worked on **Workday Security** including roles, security groups, and domain access control. Managed user access and ensured correct data visibility based on business requirements.
- Supported integrations using **EIB and Workday Studio**, including post-deployment support and issue resolution.
- Used **Workday Web Services (SOAP/REST)** to fetch and send employee and payroll data.
- Monitored integrations, identified issues, and resolved failures to maintain smooth data flow.
- Performed data mapping, **XML handling**, and validation during integrations.
- Used **RaaS** to expose Workday reports for external systems.
- Worked in **sprint cycles** to deliver enhancements and fixes based on business requirements.
- Collaborated with teams and stakeholders to understand requirements and deliver solutions.
- Provided **production support** by analyzing logs and fixing integration issues.
- Worked with **SFTP** for secure file-based integrations.
- Exposure to Compensation and Benefits modules including earnings, deductions, and compensation setup.

Projects

- **Employee Data Integration (CCW):** Worked on employee data integrations using Workday Web Services and SFTP.
- **Workday Studio Integrations:** Built and supported bidirectional complex Studio integrations between the systems.
- **Workday Security Setup:** Configured roles and domain access based on business needs.
- **RaaS Reporting:** Used Workday reports as APIs to share data with external systems.

Certifications

- Workday Pro Integrations Certification

Publications

- Design and Analysis of Kinematic Model for a 12-DOF Bipedal Robot (*IEEE Global AI Summit 2024*)
DOI: [10.1109/GlobalAISummit62156.2024.10947807](https://doi.org/10.1109/GlobalAISummit62156.2024.10947807)
- Development of PIXHAWK-Based Quadcopter: A Bottom-Up Approach for Current Consumption Optimization (*MAiTRI-2023, Springer*) DOI: [10.1007/978-981-99-8129-8_26](https://doi.org/10.1007/978-981-99-8129-8_26)

Educational Qualifications

Year	Degree	Institution
2022 - 2024	M.Tech (Mechatronics)	Centre for Advanced Studies, AKTU, Lucknow
2017 - 2021	B.Tech (EEE)	SRMS College of Engg. & Tech., Bareilly

Achievements

- Known for resolving system issues during production support.
- **Best Paper Award** — IEEE Global AI Summit 2024
- Conducted 20+ workshops on AI, robotics, and embedded systems
- Won **17+ robotics and technology competitions** including Robowars, Line Follower, Maze Solver, and Drone Racing.
